

# TIMES TABLES ROCK STARS

We explained recently that our school have joined Times Tables Rock Stars. This is an online resource used by lots of schools locally, including St Clement High School, to help motivate budding mathematicians to master their times tables. A vital skill for success in maths.

The children set up their own avatar and 'gig' along whilst practising and improving their TT Score. A leaderboard is available for learners to compete against their friends and also Rock Stars in other schools.

## Getting Started

To get rocking and practising those tables, your child will need a username and password. With most of our children not in school, we plan to send these home individually via MM but this will take us some time. If instead, your child is keen to get 'rocking,' please give us a call and we will share these with you.

You can access the site here:

**[TTROCKSTARS](https://play.ttrockstars.com/auth/school/student)**

<https://play.ttrockstars.com/auth/school/student>

The School Name will need to be entered in full: **Terrington St Clement Community School**

The site recommends that children complete a "Gig" game to help the system calibrate starting points.

## Tackling Tables

As you are aware in school, we have used Tackling Tables to regularly assess times tables and encourage our learners to keep on practising this vital skill. The online facility to this site is still active and you can continue to use this should you prefer. However, we are aware that this may not have the draw that other online learning sites have and our learners are no longer using this site regularly. We are working hard to help keep our learners motivated in very strange times!

## Doodle Tables

Don't forget Doodle Tables comes as a free tool to use alongside Doodle Maths if your child would like some extra practice too. Login details are the same as those used for Doodle Maths.
