

# Get Doodling Everybody!

DoodleMaths

DoodleTables

DoodleEnglish

DoodleSpell

## Exciting New Doodle Apps

Following the successful rollout and positive feedback about Doodle Maths, we are delighted to add to the Doodle Suite for our learners. Learners in Years 1 to 6 are now able to access the following:

- Doodle Maths
- Doodle Tables
- Doodle English
- Doodle Spell

Parents can also download and use Doodle Connect to track your child's progress, should you wish.

## What To Do

When your child first logs onto Doodle English/Spell, they will be asked to complete a series of questions. This enables the program to assess the level that your child is currently working at and then creates a personalised work program tailored to them. Just like Doodle Maths, 10-15 minutes a day will make all the difference. KS2 will also be setting tasks as part of our Supplementary Daily Tasks for Remote Learning. Have fun!

## Getting Started

Most of you will already have downloaded Doodle Maths and possibly Doodle Tables. To access Doodle English and Doodle Spell, visit [Doodle's Download Information](#)

There are download options for IOS, Android, PC, Mac, Kindle and LearnPad.

Log in details for all apps are the same as your child's Doodle Maths details.
